

## **Introduction to Psychodynamic Diagnostic Manual (PDM)**

This workshop features an introduction of the Psychodynamic Diagnostic Manual (PDM) as an alternative for the DSM. Dr. Yu will offer a comparison between the DSM and the PDM, discussing the ways in which the first can be enriched by the latter. The 2-hour presentation includes a closer look into the research and theoretical foundations of the PDM, the three dimensional conceptual structure of the PDM, as well as a continuum view of personality organizations. Brief examples might be included to illustrate some of the major concepts in the PDM.
